**CERTIFIED NON-PROFIT ORGANIZATIONS
MANAGEMENT PROFESSIONAL**

The primary objective behind designing the “Certified Nonprofit Organizations Management Professional” certification program is to meet the growing need for this type of professional certificates in the Kingdom and the Arab region. It is designed to develop leadership skills, strategic planning skills and other leadership skills to prepare the best leaders to manage their nonprofit organizations. The certificate is purposed to certify proactive leaders in the nonprofit sector and provide them with the knowledge and skills necessary to manage organizations effectively and professionally. NPO Professional certificate also applies the best global practices and standards in management, leadership, strategic business development and financial management in line with the goals of the Kingdom and Vision 2030 by developing the leadership of nonprofit organizations. It also gives NPO leaders tools to support them in achieving the target for this sector in the Vision - by raising the contribution of the nonprofit sector in the GDP by %5 by 2030. As well as the effective implementation of the plans of these organizations towards achieving their sustainable development and social goals.
